Full to part-time Assistant Manager Position: Landscape Maintenance, Service, and Irrigation

REQUIREMENTS:
* A positive attitude, a fast-paced style, and a highly organized mind.
* A need for closure as opposed to procrastination.
* Good judgment, willing to take direction, and a thick skin.
* Valid and clean CA driver’s license.
* Experience working as a landscape maintenance laborer and crew leader would be ideal, but not necessary. Willing to train!
* The ability to identify a well-maintained landscape and assess weaknesses.
* An understanding of the basic scope of work as contracted, and the ability to prioritize additional work.
* Ability to distinguish between contracted scope, warranty work, and additional services requiring a proposal.
* Ability to communicate effectively and professionally with customers, crew leaders, and company management.
* Grasp of landscape irrigation concepts including the ability to identify leaks, diagnose and repair irrigation problems, and program a variety of common controllers.
* Grasp of plant health concepts, including the ability to identify landscape plants, and diagnose diseases and pests, and recommend treatment.
* Computer skills as needed to record and track projects, and prepare estimates and proposals.

The person who fills this position will spend most of the day in the field visiting job sites, assessing performance of landscapes and the crews maintaining them, and interacting with crews and customers. This person will report to the Maintenance Manager. There is opportunity for advancement as soon as is proven by performance. It is understood that if someone is coming right out of school, some of these “requirements” may not be met, but we are patient and willing to train the right person. Attitude is everything and CUSTOMER SERVICE IS NUMBER ONE PRIORITY!!

Send resume or contact Mr. Victor Noel Rocha at Rainscape (phone number and e-mail listed above).
